

Problem 3c. The pictures herein were generated by the test cases that you are given in the problem.

Picture to the **left**:

- The window is 550 by 400.
- The **right** set of objects was generated by arguments:
 - the window;
 - a rectangle centered at **(400, 70)** with width **60** and height **100**;
 - **rectangle_color** set to 'cyan';
 - a circle centered at **(450, 300)** with radius **50**;
 - 'Mars, Neptune or Pluto?' as the **message**; and
 - 'green' as **message_color**.
- The **left** set of objects was generated by arguments:
 - the window;
 - a rectangle centered at **(200, 100)** with width **130** and height **40**;
 - **rectangle_color** set to 'yellow';
 - a circle centered at **(50, 180)** with radius **30**;
 - 'I have a dream!' as the **message**; and
 - 'blue' as **message_color**.

Picture to the **right**:

- The window is 700 by 300.
- The set of objects was generated by arguments:
 - the window;
 - a rectangle centered at **(600, 200)** with width **75** and height **75**;
 - **rectangle_color** set to 'red';
 - a circle centered at **(100, 70)** with radius **35**;
 - the indicated Bob Marley quote as the **message**; and
 - 'blue' as **message_color**.
