Problem 3b. The pictures herein were generated by the test cases that you are given in the problem.

Picture directly above:

- The window is 400 by 500.

- The left set of *blue* objects was generated by arguments: the window, a circle centered at **(100, 50)** with radius **40**, and **5** for **n** and **'blue'** for **color**.

- The right set of *red* objects was generated by arguments: the window, a circle centered at **(225, 30)** with radius **20**, and **8** for **n** and **'red'** for **color**.

Picture directly above:

- The window is 400 by 700.

- The set of *black* objects was generated by arguments: the window, a circle centered at **(60, 60)** with radius **50**, and **6** for **n** and **'black'** for **color**.
